

Abstract of the Disclosure

W.D.
A work machine is disclosed. The work machine includes a main frame and an engine assembly mounted on the main frame. The work machine also
5 includes a radiator assembly mounted on the main frame. The work machine further includes a cab assembly mounted on the main frame such that the cab assembly is interposed between the engine assembly and the radiator assembly. The work machine also includes (i) a work
10 implement coupled to the main frame and (ii) a ground engaging mechanism mechanically coupled to the engine assembly, wherein actuation of the ground engaging mechanism by the engine assembly causes the work machine to be advanced over a ground segment.
